

# ST ALBANS STUDENT MOTEC-VATED TO HELP HIV-AIDS VICTIMS IN GHANA

Last year a 17 year old Student of St Albans School joined Motec's working team to Ghana. The trip was part of a 'student work experience programme' approved by his school and parents. His father was a member of the Motec's educational team.

The student, Asif Rajah

provided IT support for Motec's orthopaedic workshop and he spent some time with HIV-AIDS victims at Nkawkaw. Touched by their plight, the young man acted on his words. He has been instrumental in the launch of a school medical journal - probably one of the first of its kind at that level and has pledged to donate the funds raised from the sales to the HIV Fund (for Nkawkaw Holy Family Hospital). Compassion in the heart and mind of a young man! What a future for him! Congratulations to Asif and gratitude to his parents, the School Authorities and all who have supported him. Motec wishes to thank Asif for going out there and showing the spirit of MOTEC-VOLUTION. A million thanks!

From Paul

## ST ALBANS SCHOOL MEDICAL JOURNAL
